

PORTFOLIO STATISTICS

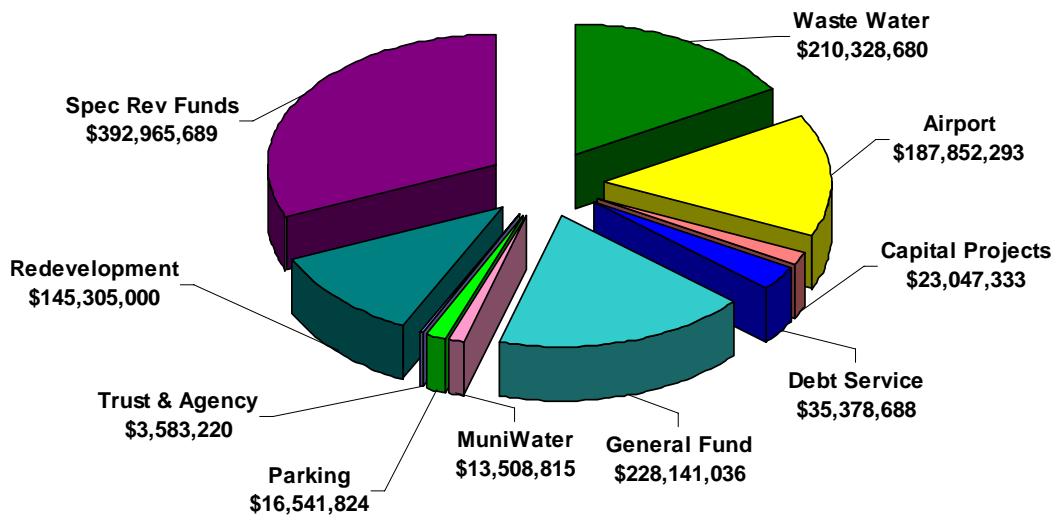

The graphs below provide snapshots of the City’s total investment portfolio as of April 30, 2008. The total portfolio size was \$1,263,662,239. The first graph shows the portfolio composition by investment type and the second two graphs show the portfolio’s cash balances by fund type.

Portfolio Composition

The graph below reflects the reconciliation of total balances reported by the investment program’s investment accounting system compared to the City’s Financial Management System (FMS).

Cash Balances by Fund Type

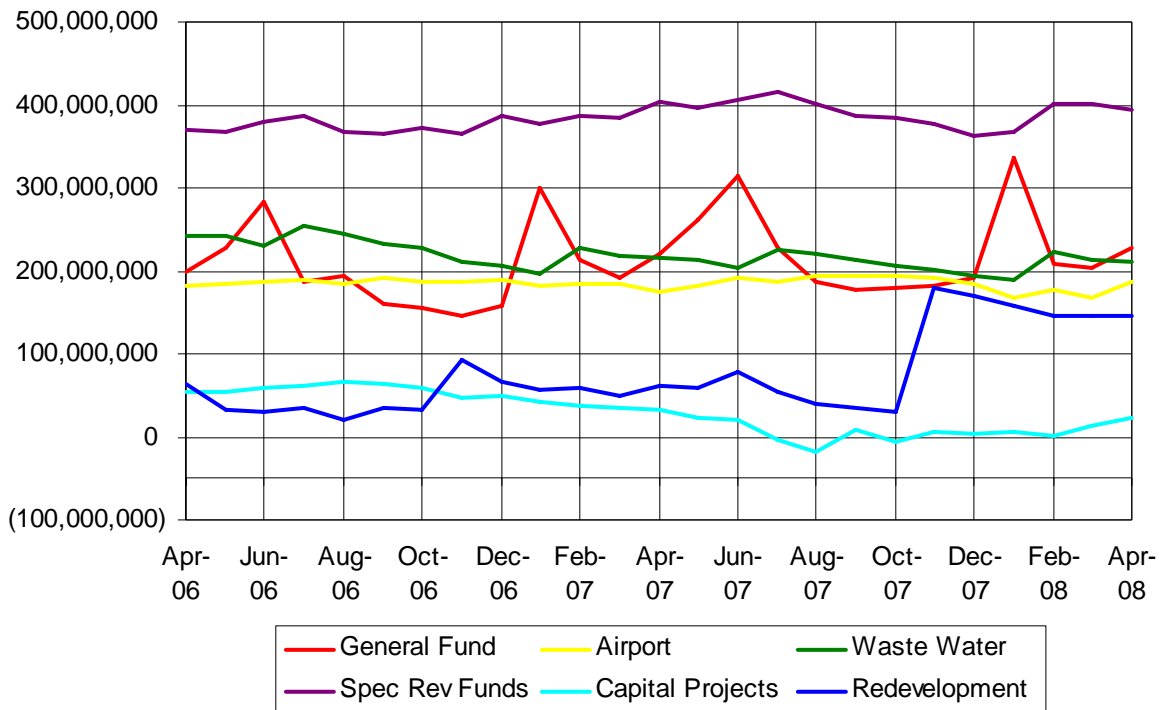

Total Portfolio	\$1,263,662,239
Deposit-in-Transit, Outstanding Checks *	(\$7,009,661)
Cash Balance Total	\$1,256,647,578

*Reflects timing differences between when deposits are made and accounting for proceeds in FMS or when checks are written and not yet cashed by the receiving party.

The graph below compares the monthly total balances of selected City funds as reported by FMS.

Monthly Comparison of Balances by Fund Type

Negative Cash Balances

The Capital Projects fund balance remained above zero again this month. A time lag exists between payments made through the investment pool, and receipt of funds for the related reimbursement for these capital costs from trustees, which has resulted in negative balances. Finance has been working with departments to shorten the time lag between capital project expenditures processed through the pooled investment portfolio by capital project managers and reimbursement requests.

INVESTMENT STRATEGY

The Federal Open Market Committee lowered the federal funds rate 25 basis points at their scheduled meeting date on April 30th to 2.00%. Most economists are predicting the Fed will leave the rate unchanged at the June 25 Federal Open Market Committee (FOMC) meeting. The

City's strategy includes a large portion of short term securities in order to match maturities to large cashflow needs during the summer months while looking for value in these areas and keeping within the guidelines of the City's investment policy.

PORTFOLIO PERFORMANCE

Comparison of Portfolio Investment Earnings to FY 2007-08 Budget

Below is a comparison of actual investment earnings on an accrual basis to the fiscal year 2007-08 budget. Monthly budgeted earnings apportionments for the City funds are based upon historical cash balance averages and an assumed average interest rate yield of 4.40% for the fiscal year. As reported in the Notes to the General Purpose Financial Statements in the City's Comprehensive Annual Financial Report (CAFR), annual budgets are not prepared for some funds (for example, Nonexpendable Trust Funds, Repair and Demolition Fund, etc). The City's budget for the General Fund, Special Funds and Capital Improvement Programs reflect total annualized investment income earnings of \$27.3 million for the current fiscal year. The following schedule reflects the net investment earnings for only the budgeted City funds participating in Investment Portfolio Fund 1.

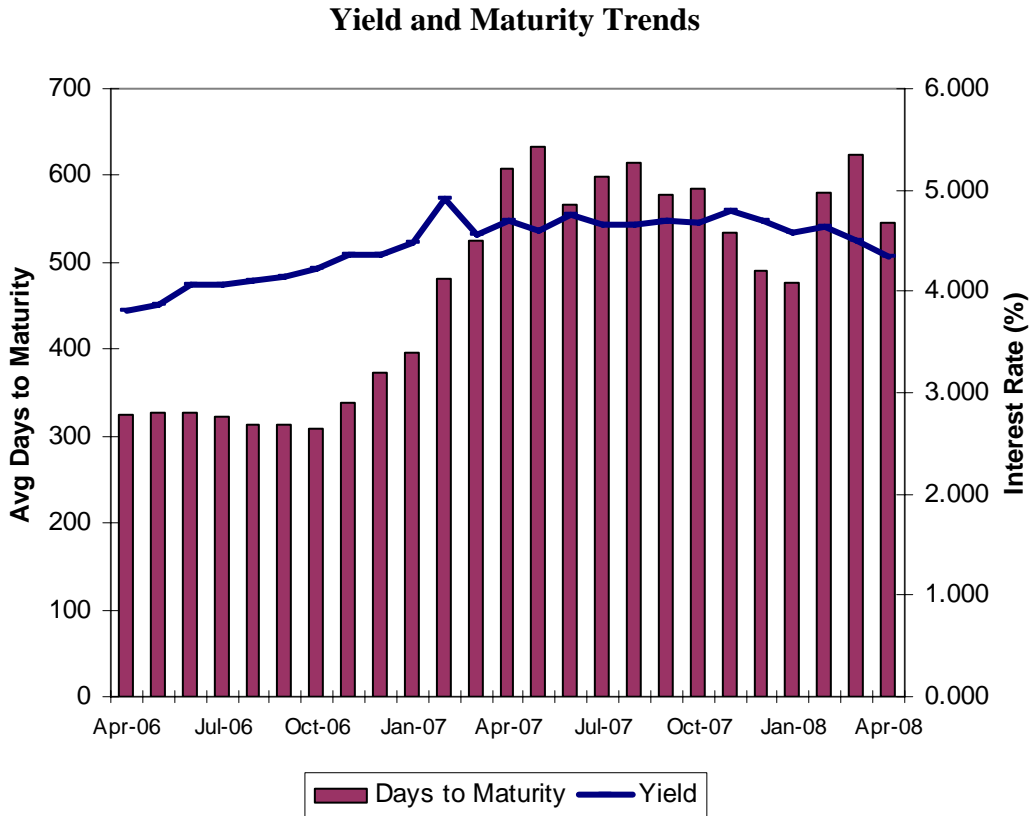

The Redevelopment Agency projects annualized investment income earnings of \$3.55 million for Fiscal Year 2007-08. This represents only the interest earned on the Agency's funds participating in the City's investment program and is exclusive of interest earned on funds held in escrow or by fiscal agents and on developers' loans¹. The amounts shown for the Redevelopment Agency's monthly and fiscal year-to-date budgeted investment earnings are based on the Agency's annual budget for its participation in the City's investment program, apportioned on a pro-rata basis for the month and year-to-date, respectively.

Yield and Maturity Trend

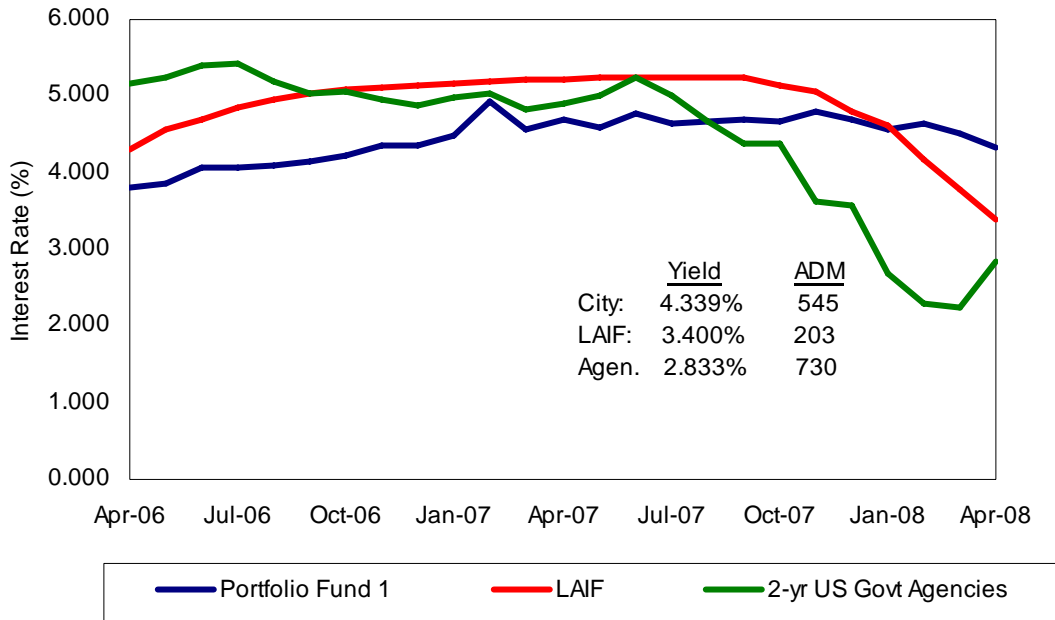

The following graph provides the historical monthly dollar-weighted average days to maturity of the portfolio for each month for the past two years (bar graph) along with the yield trend in Portfolio 1 (line graph).

Benchmark Comparison

The following graph compares the earned interest yield of the City’s Portfolio Fund 1 with the monthly average yields for the same period of the State of California Local Agency Investment Fund (LAIF) and of the two-year U.S. Government Agency securities from April 2006 through April 2008. The City’s Total Portfolio is not used for benchmarking comparisons since it includes various funds, which are required to be invested apart from the pool and have their own separate cash flow needs.

Benchmark Comparisons

The two-year US Government Agency securities and the Local Agency Investment Fund yield are the closest suitable benchmarks for the City’s Portfolio Fund 1 since the weighted average maturity for the portfolio is 545 days. The two-year agencies yield rose during the month of April, but remained below the City’s portfolio yield. The FOMC decreased the Fed Funds 25 basis points at their regularly scheduled meeting on April 30, to 2.00%, however analysts are expecting no change at the next meeting scheduled for June 25th.

The Portfolio Fund 1 performance dropped slightly as expected due to the decline in market interest rates. As higher yielding securities mature, the City has also experience a decline in the portfolio yield because those funds are reinvested in a much lower interest rate market. LAIF’s average days to maturity is 203 days versus the City’s 545 days. The market is now seeing a “normal” upward sloping yield curve, therefore LAIF’s shorter average life will continue to cause their yield to decline more rapidly as interest rates continue their descent.

Attached to this report are the following reports, providing more detailed information on the portfolio statistics as of April 30, 2008:
