

EXHIBIT A

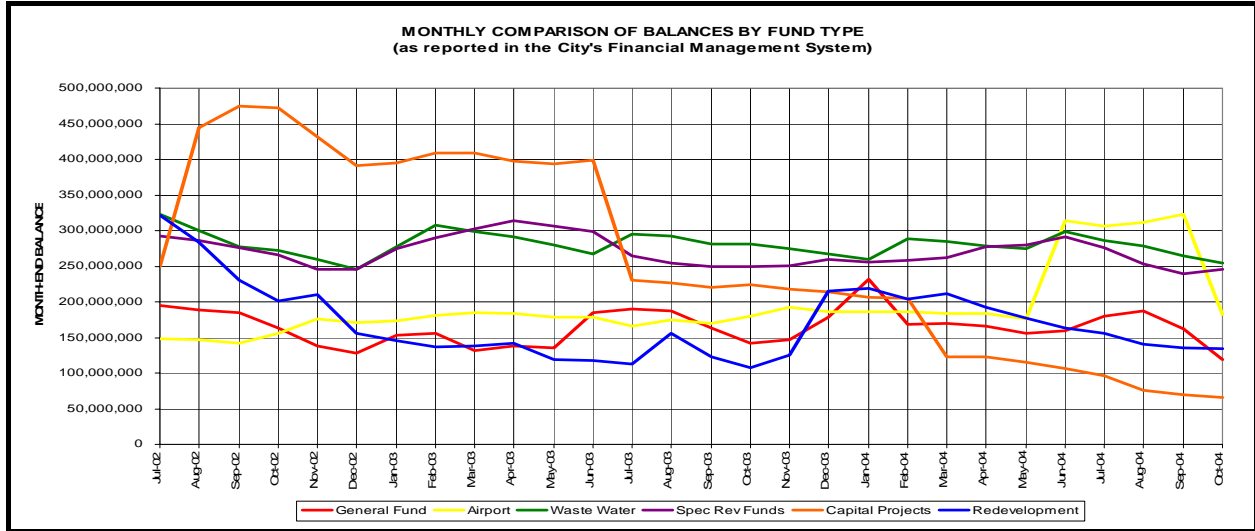

The above graph depicts the portfolio composition as of the end of the reporting quarter, displaying the dollar value of the investment types to the total portfolio.

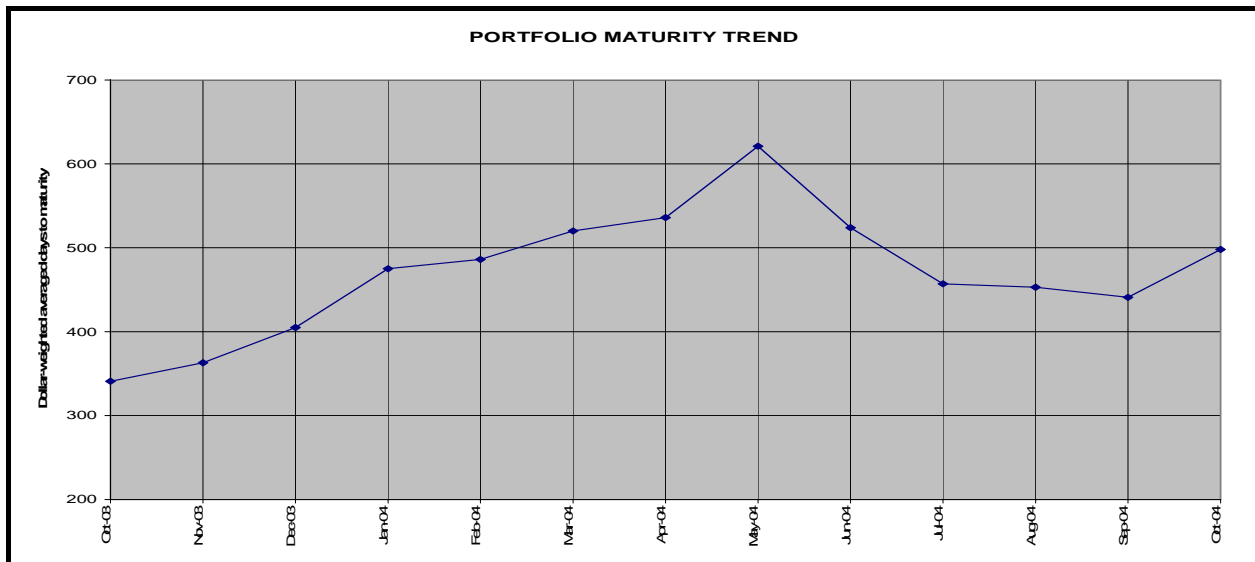

The above graph reflects the reconciliation of total balances reported by the investment program's investment accounting system compared to the City's Financial Management System (FMS):

Total Portfolio	\$1,113,563,533
Deposit-in-Transit, Outstanding Checks *	<u>62,986,225</u>
Cash Balance Total	\$1,050,577,308

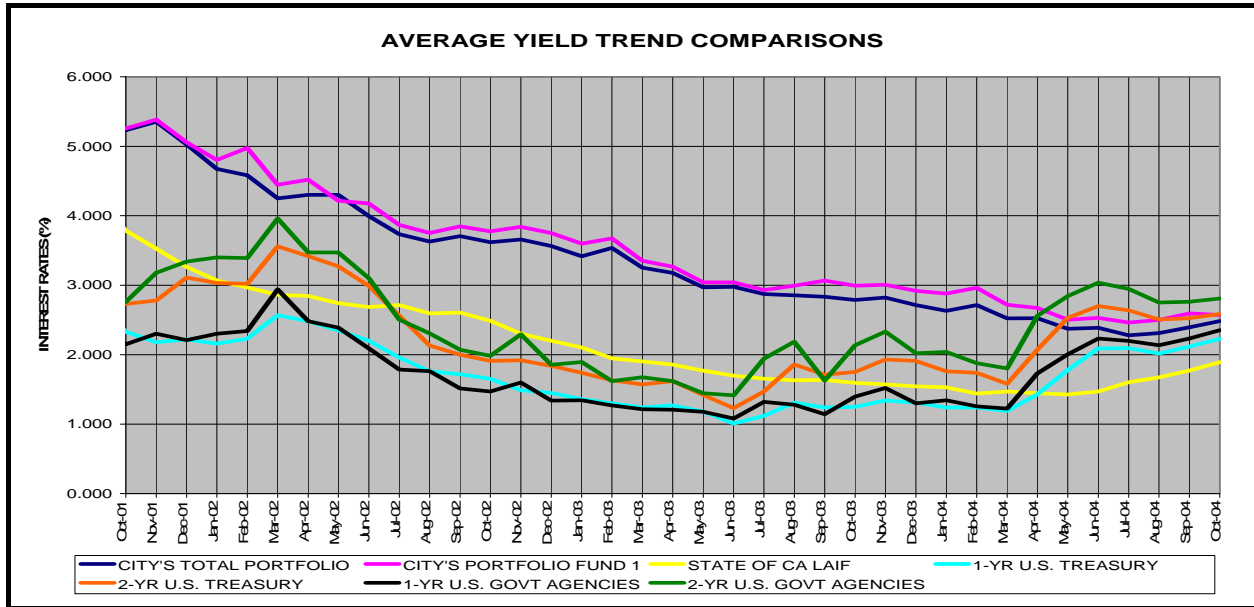

*Reflects timing differences between when deposits are made and accounting for proceeds in FMS or when checks are written and not yet cashed by the receiving party.

The above graph compares the monthly total balances reported by the City's FMS.

This graph provides the historical monthly dollar-weighted average days to maturity of the portfolio for each month of the current quarter as compared to the past twelve months' activity.

This graph compares the earned interest yield on the City’s total investment portfolio and investment portfolio fund 1 (pooled funds) with the monthly average yields for the same period on the State of California Local Agency Investment Fund (LAIF) and on the one-year and two-year U.S. Treasury and U.S. Government Agency securities.
